### **DETAILED ACTION**

1. According to the Amendment received 15 December 2004, claims 1 and 23 have been amended and claims 22 and 37 have been cancelled.

### ***Response to Arguments***

2. Applicant's Remarks received 15 November 2004 have been fully considered and are persuasive.

### ***Allowable Subject Matter***

3. Claims 1-21 and 23-36 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, the prior art fails to disclose or make obvious an apparatus for delivery of ions generated at atmospheric pressure to a mass spectrometer having an entrance opening comprising a drift tube receiving the ions and a field generating apparatus that produces a DC potential gradient with curved equipotential surfaces inside the drift tube.

Claims 2 -21 are allowed by virtue of their dependency on claim 1.

Regarding independent claim 23, the prior art fails to disclose or make obvious a method for feeding ions generated at atmospheric pressure to a mass spectrometer by guiding charged particles through an ion migration drift tube and focusing them into the entrance opening of a

mass spectrometer with a DC potential gradient with curved equipotential surfaces inside the drift tube.

Claims 24 -36 are allowed by virtue of their dependency on claim 23.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance"
